ESPERIENZA
PROFESSIONALE

01/06/2018–alla data attuale

Cloud Architect

Reply spa, Milano (Italia)

As **Cloud Architect and DevOps**, being employed in an Italian Consulting firm focused on Cloud environments (GCP) my main duties are to define new architectures and tools to migrate to Cloud existing Applications and new Services in order to use the new Cloud functions to improve the availability, up-scaling and the automations. We are defining an outer-architecture to facilitate the data ingestion steps and the monitoring of systems.

As DevOps my daily tasks are to improve the reliability and the automations of the cloud customers' projects supported, both during the dev/test life cycles and also to improve the production sites performance.

Project Task: System Architecture definition, CI/CD stack implementations, app deployment procedures, Cloud Data ingestion automations and monitoring, operation on hosted projects/sites, On-premise to Cloud Migration

Technologies used: GCP Compute Engine, VPC, gke-kubernetes, Pub/Sub, IAM, Cloud Functions, Dataflow, Gae, Bigquery, Infrastructure as code, devops tools: terraform, Consul, dockerfile, Jenkins, gitlab, Rundeck, Nginx, Varnish, Httpd, Wordpress, mysql, python

Customer/Project Esselunga, Intesa siti informativi, Regione Veneto, Eloqua-Fastweb

01/06/2017–31/05/2018

Devops

Startup, Milano (Italia)

As **DevOps**, being employed in an Italian Podcast provider Startup company I've defined and implemented a provisioning/deployment tool for microservices based applications running on AWS ECS (container orchestrator for AWS).

Project Task: System Architecture definition, micro-services templates definition, CI/CD stack definition, app deployment procedures, poc CI/CD

Technologies used: AWS ecs/eks/ /ecr(docker images hub) , ALB /SQS, Infrastructure as code , devops tools: terraform , Packer , Consul, dockerfile , Jenkins, aws beanstalk

01/10/2016–31/05/2017

Devops

Startup, Milano (Italia)

As **Devops/Cloud Architect and Kubernetes specialist** being employed in an Italian cloud system integrator company, I wrote the automation scripts for Kubernetes Stacks Templates running on AWS and performed some POC as example for Application migrations to Kubernetes.

Project Task: Shared state management for kubernetes stack on S3 AWS, applications' stack templates definition, VPC AWS architecture definition (networking), Terraform scripts writing for provisioning and deployment of application stack, Training on Kubernetes environment

Technologies used: AWS ec2, S3, Terraform, Kubernetes

01/01/2016–01/09/2016

System engineer - Devops

startup

As **Kubernetes specialist** being employed in an Italian cloud system integrator company, I wrote the automation scripts for Kubernetes Stacks Templates running on AWS and performed some POC as example for Application migrations to Kubernetes.

Project Task: Shared state management for kubernetes stack on S3 AWS, applications' stack templates definition, VPC AWS architecture definition (networking), Terraform scripts writing for provisioning and deployment of application stack, Training on Kubernetes environment

Technologies used: AWS ec2, S3, Terraform, Kubernetes

01/01/2015–01/01/2016

System Engineer - Devops

Free Lance, Milano (Italia)

As **Devops/Cloud Architect AWS** at a GDO company have performed the migration and the refactoring of customer's CRM from vmware environment to AWS

Project Task: migration scope definition, migration steps definition, refactoring based on AWS DBaaS utilization, rollout and acceptance tests for any different transaction source (pabx of different vendor)

Technologies used: AWS Ec2, ALB (load balancing) SQS (persistent queue), DBaaS mysql, Backup dati

Other activities : Scripting Ansible, POC Openstack , Apache HTTPD /Nginx/Tomcat - IP Tables configurations

01/01/2002–31/12/2014

Technical Account and Presales

Alcatel Enterprise - Nextiraone, Milano (Italia)

Technical Account and Presales in Data Networking software and appliances and Voice Applications.

During this period I have developed the following competencies giving me the ability to:

- *provide clear, compelling, effective responses to tender documents.*
- *design and present the proposed solutions to Customers and Consultants.*
- *be the design authority for customer oriented, cost effective solutions.*
- *maintain a high level of product expertise.*
- *provide Market relevant feedback to the Sales Accounts .*
- *adapt my message to suit the context / customer*
- *have Excellent Presentation and communication skills.*

01/02/1986–01/12/2001

Software engineer - TeamLeader - Product Leader

Bull HN - Alcatel-Lucent, Milano (Italia)

As a Software engineer, with increasing responsibility, I worked on Telecom Product Software projects (in Alcatel) and as Software System integrator for Embedded and Industry Automation

Solution (BULL). Example of software solution developed and offered are:

- *"Network & Node Management" Application*
- *Monitoring and alarm System*
- *Networks Services server*
- *Authetication & authorization servers*

In this time period I acquired a deep technical knowledge for many protocols and environments for local and geographical communications (TCP/IP, MPLS, Frame Relay ...) and developed my skill to manage professional teams counting 9/11 persons

ISTRUZIONE E FORMAZIONE

- 01/01/1981–01/12/1985 **Laurea in Scienze dell'Informazione**
Università Statale di Milano, Milano (Italia)
- 01/10/2019 **“the Professional Cloud Security Engineer”**
Google Cloud Certified
- 01/11/2019 **“the Professional Cloud Security Engineer”**
Certified by Google Cloud
